Permabond Launches a Smartphone App for Engineers

SOMERSET, NJ –Permabond Engineering Adhesives has launched its new smartphone App “Engineers Guide to Adhesives”, a free download for iPhone and Android platforms. This engineer’s guide gives helpful, impartial advice about:

- Different types of adhesives, their pros and cons
- Joint design – how to optimise the strength and performance of joint design
- Surface preparation of many different metals, plastics and other materials and compatibility of different adhesive chemistries with different substrates
- Chemical compatibility of adhesives and temperature resistance of different adhesive technologies
- A conversion tool which calculates length, weight, pressure, volume and temperature
- A helpful glossary of technical terms
- Yields to help calculate how much adhesive you would require for a job

To download, simply visit the link on the www.permabond.com website or type Permabond into application search for iPhone or Android.
